Akshay K P

Web Developer

akshaykp.in | admin@akshaykp.in | +918547852073 | github.com/axshaykp

I am a **web developer** with **3 years of experience** specializing in **React.js, Next.js, Remix, Astro,** and more. I have successfully built **front-end solutions** for **CRM, LMS, CMS, internal tools,** sustainability software platforms with extensive **data visualization,** web applications, and both static and dynamic websites. My experience includes thriving in **fast-paced environments, managing multiple projects** simultaneously. I am eager to expand my expertise into backend development, which I have been exploring through personal projects. In addition to my proficiency with frameworks, I have a strong command of core technologies such as **HTML, CSS, SCSS, and Vanilla JavaScript.** Furthermore, I have over **2 years of freelance experience** collaborating with **service and product-based companies** across various industries, including **educational institutes, automotive, and IT services.**

Technical Skills

- Frameworks: **Astro, Next.js, React.js, Remix**
- Front-end: **HTML, CSS, SCSS, JavaScript, Typescript, TailwindCSS, Redux, Vite**
- Other: **Cloudflare, Supabase, Prisma, Bash, Git, Linux, Nginx Proxy Manager, Docker, Portainer**

Experience

Software Engineer - Frontend at StaxLabs Inc Pvt Ltd - Since 2024 January

- Developed responsive user interfaces by translating Figma designs into high-quality React.js code, ensuring design fidelity and optimal performance.
- Collaborated closely with the QA team to validate new features, promptly address issues, and maintain high-quality standards throughout the development lifecycle.
- Participated in daily Scrum meetings to report progress, discuss completed tasks, and receive new assignments, fostering effective communication and team alignment.Assist the QA team in validating the correct operation of the product.

Front-end Developer at MOJGENIE IT Solutions Pvt Ltd - 2022 March to 2023 Dec

- Collaborated with the design team to transform concepts into pixel-perfect, responsive web interfaces.
- Built dynamic and efficient websites by leveraging front-end frameworks such as Astro, Next.js, and React.js, alongside foundational technologies including HTML, CSS, SCSS, TailwindCSS, Bootstrap, and JavaScript.
- Ensured cross-browser compatibility and optimized performance for a seamless user experience.
- Troubleshot and resolve front-end issues to maintain site functionality and enhance user satisfaction.
